

*August 7, 2007*

*My teeth used to be very crooked. I was so ashamed that they prevented me from doing certain things. I would never look straight at the camera. On dates, I wouldn't laugh at a joke so my date wouldn't get a good look at my teeth. The worst were job interviews. I would respond to questions with one word answers, trying to hide my teeth. I realized that I couldn't keep living like this! After the procedure, when I looked in the mirror, I broke down in tears. I looked beautiful! Re-doing my smile was the best decision I ever made.*

*Thank you!*
